EDUCATION

University of Washington College of Engineering — **Expected June 2028**
B.S. Human Centered Design and Engineering — *Seattle, WA*

Bellevue College — **June 2025**
A.A.S. Computer Science – High Honors — *Bellevue, WA*

PROJECTS

Mitcham — **2026**
Full-Stack Food-Rescue Marketplace — *Seattle, WA*

- Designed, built, and shipped a two-sided marketplace connecting vendors' end-of-day food surplus with nearby customers at a discount, using a vanilla JS front end, Node/Express API, and PostgreSQL (Supabase) database with Google OAuth.
- Owned the system end-to-end – REST API, role-based access, database migrations, and admin tooling; currently in private beta and starting to onboard interested vendors ahead of public launch.

SeniorGuard — **November 2024**
IoT Health Monitoring System — *Bellevue, WA*

- Built an IoT sensor network across 10+ households using C/C++ and embedded systems for real-time health monitoring and automated emergency alerts, designed around the needs of elderly end users and caregivers.
- Developed end-to-end solution with hardware integration, firmware, and cloud monitoring dashboard, achieving 99%+ uptime through robust error handling.

EXPERIENCE

Muzings — **June 2026 – Present**
Software Engineer — *Seattle, WA*

- Support product development and quality at an early-stage AI startup building a personal capture-and-recall memory assistant.
- Own the testing process for new features – designing test cases, executing them against the live product, and tracking recurring issues to inform engineering fixes.

Amma Childcare — **September 2020 – Present**
Software Developer — *Bellevue, WA*

- Developed and maintained production websites for 2 facilities using HTML, CSS, JavaScript with cross-browser compatibility and mobile responsiveness.
- Debugged and resolved front-end issues through systematic troubleshooting, ensuring 99%+ site availability across devices.

LEADERSHIP

Association for Computing Machinery — **September 2023 – June 2025**
Vice President — *Bellevue, WA*

- Organized competitive programming sessions and algorithm workshops for 500+ CS students to strengthen technical interview preparation.
- Coordinated tech company partnerships to secure mentorship and resources for members.

PyCamp — **June 2020 – August 2020**
Python Education Platform — *Bellevue, WA*

- Designed 8-week Python curriculum covering CS fundamentals (control flow, loops, functions, data structures) for 20+ students with 100% completion rate.
- Developed debugging methodology and hands-on coding projects to improve student problem-solving proficiency.

SKILLS

Languages: Python, Java, C/C++, C#, JavaScript, HTML, CSS; **Technologies:** Git, Node.js/Express, PostgreSQL/SQL, REST APIs, Embedded Systems, IoT, AI/ML; **Competencies:** DSA, OOP, Full-Stack, Agile, System Design, QA/Testing, Debugging
